#### Who this meeting is for:

Consultants, clinical academics, nurses, medical trainees and other healthcare professionals from London and the network region involved in the care of adults and children with sickle cell disease and thalassaemia.

**To Register:** Please email [info@ststn.co.uk](mailto:info@ststn.co.uk) to book your place. Please specify your full name, email address and which trust you are from in the email. This is a free event, however spaces are limited so book early to avoid disappointment.

The South Thames Sickle Cell and Thalassaemia Network (STSTN) is a haemoglobinopathy collaboration led by Consultant Haematologists and Paediatricians at King's College Hospital, Evelina Children's Hospital and Guy's and St Thomas' Hospital NHS Foundation Trusts.

Our goal is to improve the patient experience by offering better treatment outcomes for people with sickle cell disease and thalassaemia.

The network provides educational events and peer support for all consultants, medical trainees and other healthcare professionals involved in the care of patients with red cell disorders. By offering this, we aim to promote the use of shared working practices and clinical guidelines across the South Thames region and beyond.

To subscribe to STSTN please send an email to [info@ststn.co.uk](mailto:info@ststn.co.uk).
