

Joe Sharif MBChB (Hons.), MCRP, FRCPath, studied Medicine at the University of Liverpool. He completed his medical and haematology training in London and Manchester. He undertook a clinical fellowship in sickle cell disease at Manchester University Hospitals NHS Foundation Trust in 2017, where he was subsequently appointed Consultant in 2019, specializing in haemoglobinopathy and general haematology. Joe's interests include sickle cell disease research and he is actively involved with phase I-III clinical trials. He currently holds a position within the Serious Hazards of Transfusion (SHOT) working expert group.
